

Zillion Global Business Services

INDIA'S ELECTRONICS GROWTH ENGINE

Design • Industrialize • Manufacture • Scale

One integrated industrial ecosystem connecting global and Indian customers to engineering, manufacturing and business solutions.

YOUR PRODUCT → OUR ECOSYSTEM → MARKET-READY SCALE

Manufacturing is fragmented. Growth should not be.

ZillionLink is designed around the problems that slow electronics companies down.

01

Too many handoffs

Design, sourcing, fabrication, assembly and compliance often sit with different suppliers.

02

Slow industrialization

The gap between a working prototype and repeatable production can consume time and management bandwidth.

03

India entry complexity

Global companies need qualified partners, local supply chains and execution support—not just a factory address.

04

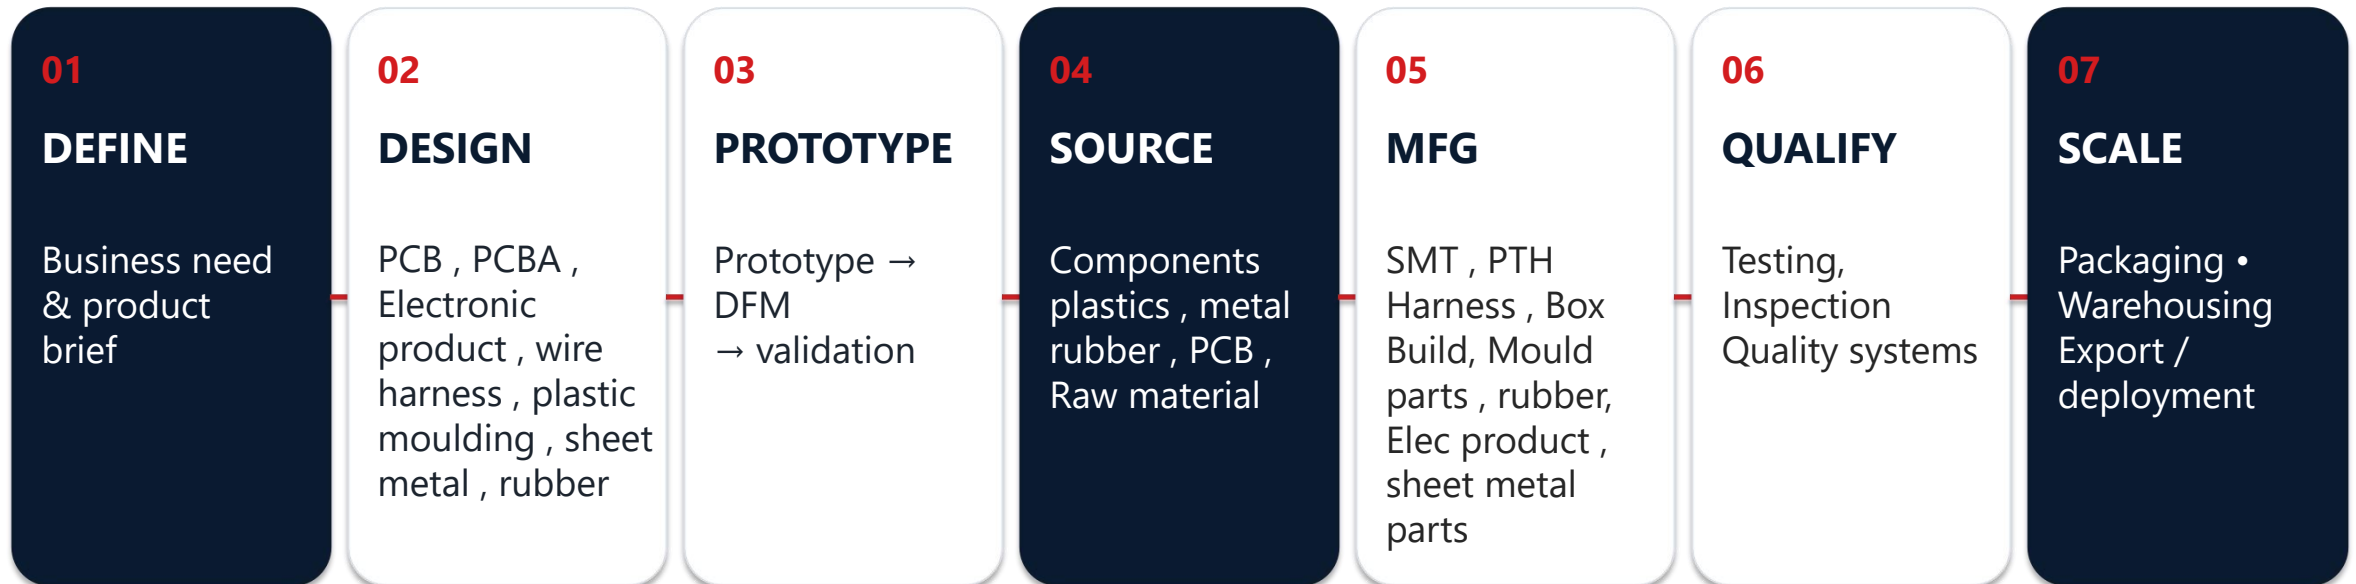

Scaling without control

Capacity expansion can increase supplier risk, quality variation and coordination overhead.

THE ZILLIONLINK RESPONSE: ONE ACCOUNTABILITY LAYER ACROSS THE INDUSTRIAL VALUE CHAIN

One platform. One coordinated journey. End-to-end.

An asset-light ecosystem that orchestrates trusted manufacturing partners, technology providers and specialists through a single point of contact.

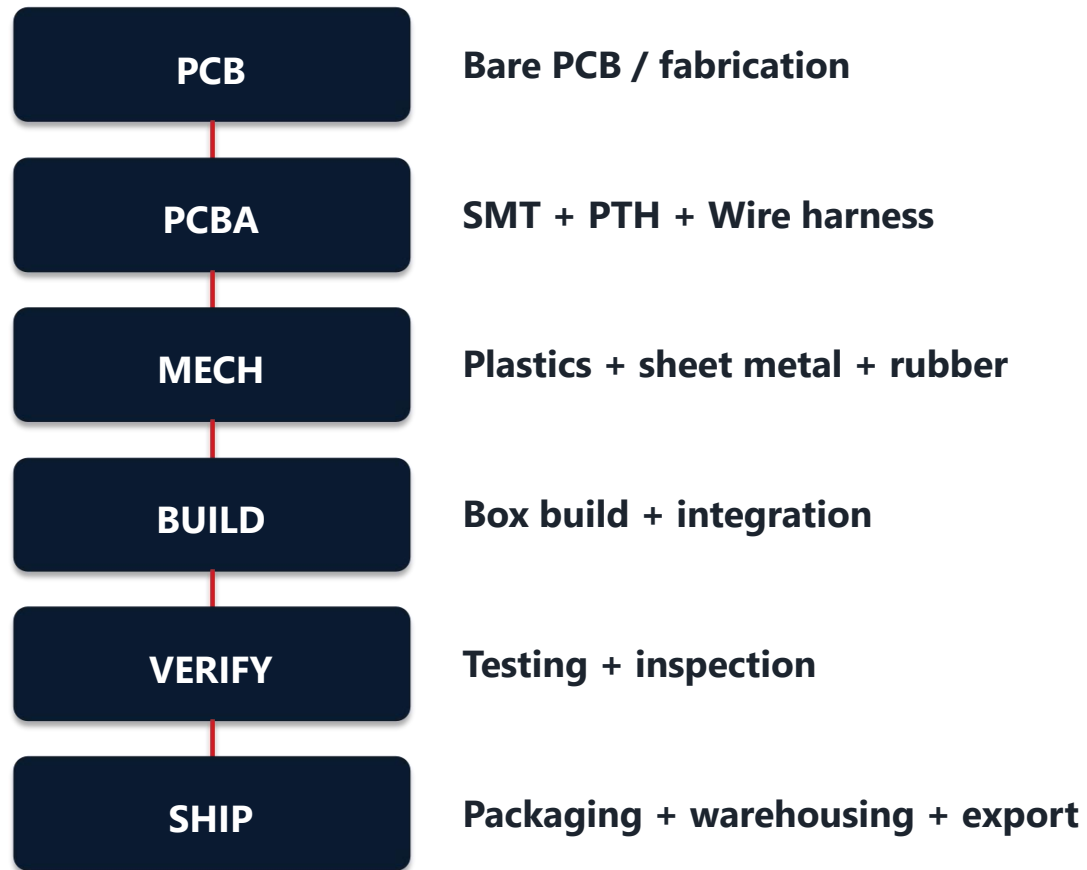

The outcome

Fewer interfaces | faster decisions | qualified capacity | scalable execution

From bare PCB to finished product.

Manufacturing strength is not a list of processes—it is the ability to connect them into one production flow.

WHAT THE CLIENT GETS

- ❑ Single-point coordination across multiple manufacturing capabilities
- ❑ Access to qualified ecosystem capacity without owning every asset
- ❑ Faster transition from prototype to repeatable production
- ❑ Flexibility to support domestic programs and global supply requirements
- ❑ A scalable route for new-product introduction and volume ramp-up

CORE PROMISE: SPEED + QUALITY + AGILITY + SCALE

Turn engineering intent into manufacturable reality.

Product design capability connects electronics, embedded systems, PCB, mechanical design, firmware and IoT.

ECOSYSTEM LOGIC: MATCH THE PROGRAM TO THE RIGHT CAPABILITY, LOCATION, QUALITY SYSTEM AND SCALE

Build trust into the supply chain—not after it.

The ecosystem includes certified manufacturing partners plus assessment, audit, inspection and operational-improvement support.

ISO 9001

IATF 16949

ISO 13485

AS9100

ISO 14001

ESG Sustainability

QUALITY & RISK SUPPORT

- EMS vendor assessments
- Supplier audits
- Third-party inspections
- Factory assessments
- 5S & Lean assessment
- Operational excellence projects
- Cyber-security audits & Wi-Fi security solutions
- TPM implementation

WHY THIS MATTERS TO A CXO

Capability

Quality system

Supplier readiness

Operational discipline

Scale potential

From Factory to Full-Scale Solution.

Business solutions help manufacturers improve readiness, productivity, compliance, capability and growth.

GROW Government schemes • ZED • M&A advisory

Improve access to growth levers and strategic options.

CERTIFY ISO 9001 • ISO 14001 • ISO 13485 • AS9100 • IATF 16949

Build systems aligned to customer and market expectations.

TRANSFORM Lean • 5S • TPM • Operational Excellence • KPI Governance / Virtual COO

Turn improvement activity into measurable operating discipline.

SUSTAIN ESG & Sustainability solutions

Build sustainability into operations and customer readiness.

PEOPLE Manpower • MSME training • Leadership development • Corporate wellness

Strengthen capability alongside capacity.

DIGITAL AI-powered manufacturing • Cyber-security audits • Wi-Fi security

Address emerging digital and operational risks.

ONE ECOSYSTEM. MULTIPLE BUSINESS PROBLEMS. ONE COORDINATED RESPONSE

A practical India + global growth bridge.

Built for OEMs, EMS companies, electronics MSMEs, semiconductor ecosystem players, product startups, investors, government and academia.

FOR GLOBAL CLIENTS

- India manufacturing / sourcing entry support
- Product design → prototype → production pathway
- Multi-capability supplier coordination
- Access to scalable EMS and component ecosystem
- Local execution with a single point of contact
- Path to long-term India localization and scale

FOR INDIAN CLIENTS

- New product industrialization and NPI support
- Manufacturing capacity augmentation
- Supplier development and factory assessment
- Quality, Lean, TPM and operational excellence
- Certification and compliance support
- Business transformation, training and growth advisory

**Automotive • Industrial • Medical • Railways • Telecom • Renewable • Defense • Energy • IoT •
Smart City • EV • Hydrogen • EMS • ESDM**

BEST FIT

From connected capabilities to global manufacturing influence.

The source profile defines a 2030 ambition to become India's most trusted Industrial Ecosystem Platform.

KPI	TODAY	VISION 2030
Business Ecosystem	500+ Crore	₹3,000+ Crore
Customers	250+	2,000+
Manufacturing Partners	19	50+
Presence	04 countries	25+ countries
Subject Matter Experts	09	25+
Trainers / Freelancers	18	90+
Workforce Team	03	50+

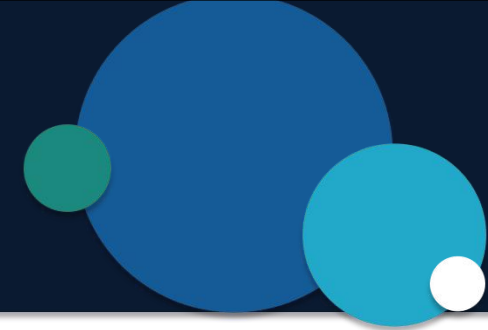

MISSION Make India the World's Preferred Manufacturing Destination
